2020

programming lang.

C#

Javascript

skills

- Backend Development
- Version Control (e.g GIT)
- API Testing (e.g. Postman)
- Object-Relational Mapping
- Database Management System

about me

as a student majoring in Informatics, I actively take various courses on platforms such as udemy and dicoding to deepen my skills as a Backend Developer. With various projects or portfolios, I am interested in finding job opportunities or internships in the field of software development, especially as a backend. I want to start a career and continue to improve my competence in this industry.

Portfolios

Kemendikbud, Puspernas: **GEMASTIK** 2024

C#   ASP.NET Core   EF Core   MySQL
